Charity and Community stalls on Buckingham Market – Information

Buckingham Town Council provide a space for Charity and Community stalls, which are non-profit making, and are used to enhance community in Buckingham by providing information, raising awareness of their causes or fundraising etc.

This service is offered on both Tuesday and Saturday markets, and space is offered free of charge. The Town Council ask that organisations provide their own tables or cover.

The charity stall is provided on the assumption that the stallholder is adequately covered by insurance provision and the general market rules will apply at all times.

Copies of the market rules are available on the Town Council website, from the Market Manager or the Town Council Offices.

The Market is in operation between 8am and 4pm on both market days and vehicles should vacate the market no later than 9am. Vehicles are not permitted on the market between the hours of 9am and 3.30pm.

Should the stallholders need to leave the market between these hours, they are asked to walk their equipment from the market and load their vehicles at a convenient place off the market site. This is to reduce disruption to regular market traders.

Charity or Community Stalls must be booked in advance. Detailed below are contacts for your booking, other enquiries can be dealt with using the details above.
