Subject: New Licensing Policy

We have produced a new draft licensing “Policy”, which explains Buckinghamshire Council’s approach to making decisions about licences. This Policy is important for businesses such as pubs, shops, restaurants and nightclubs but also for members of the wider community such as residents, community groups and responsible authorities who may be impacted by, or have an interest in, licensing decisions.

The Policy reflects feedback we received in our recent survey with key stakeholders, which included the licensed trade, representatives of Buckinghamshire residents and responsible authorities such as the police and fire service. It also includes things that reflect the Council’s core objectives of strengthening our communities, improving our environment, protecting the vulnerable and increasing prosperity.

We welcome your views to help shape future policy decisions in this important area. To find out more and to complete the [survey please click here](#). Please respond by 26 September 2021.

With thanks
